Agenda

- Planning for Monday lightning talks

Agenda

- Planning for Monday lightning talks

- Discussion of end-of-term self-assessment and grading.

Agenda

- Planning for Monday lightning talks

- Discussion of end-of-term self-assessment and grading.

- Project work time!

⚡ Lightning Talks ⚡

An opportunity to show off what you've done and get last minute feedback

- Please share any materials you want to show ahead of class.

An opportunity to show off what you've done and get last minute feedback

- Please share any materials you want to show ahead of class.

- To keep things simple, I'm going to ask you to upload any relevant files or links to the google drive folder for your project group.

An opportunity to show off what you've done and get last minute feedback

- Please share any materials you want to show ahead of class.

- To keep things simple, I'm going to ask you to upload any relevant files or links to the google drive folder for your project group.

- Groups will have ~10m each, and I will be a brutally efficient timekeeper to be sure everyone gets their full time.

An opportunity to show off what you've done and get last minute feedback

- Please share any materials you want to show ahead of class.

- To keep things simple, I'm going to ask you to upload any relevant files or links to the google drive folder for your project group.

- Groups will have ~10m each, and I will be a brutally efficient timekeeper to be sure everyone gets their full time.

- I will randomize the order of presentations and share those at the beginning of class.

- The form and content of your presentation is up to you.

End-of-term assessments

Self-grading and other logistics

- Final date to submit projects is 12/16

Self-grading and other logistics

- Final date to submit projects is 12/16 ... but you can share them whenever you are ready!

Self-grading and other logistics

- Final date to submit projects is 12/16 … but you can share them whenever you are ready!

- When your group's project has been submitted to me (via email, with all members of the group cc-ed on the message), I will share a self-assessment form with you.

Self-grading and other logistics

- Final date to submit projects is 12/16 … but you can share them whenever you are ready!

- When your group's project has been submitted to me (via email, with all members of the group cc-ed on the message), I will share a self-assessment form with you.

- I will ask you to assess your performance and learning in this class relative to your goals for the course.

Self-grading and other logistics

- Final date to submit projects is 12/16 ... but you can share them whenever you are ready!

- When your group's project has been submitted to me (via email, with all members of the group cc-ed on the message), I will share a self-assessment form with you.

- I will ask you to assess your performance and learning in this class relative to your goals for the course.

- I will also ask you about your self-assessment of your work on the group project, as well as your feedback on your group as a whole.

Self-grading and other logistics

- Final date to submit projects is 12/16 ... but you can share them whenever you are ready!

- When your group's project has been submitted to me (via email, with all members of the group cc-ed on the message), I will share a self-assessment form with you.

- I will ask you to assess your performance and learning in this class relative to your goals for the course.

- I will also ask you about your self-assessment of your work on the group project, as well as your feedback on your group as a whole.

- Based on these criteria, I will ask you to select a letter grade you believe represents a fair assessment of your work.

My discretion around final grades

- I will only downwardly revise your self-assigned grade if it is in strong contrast to the feedback from other group members or if I have specific concerns about your participation in the final project.

- In this (fairly unlikely) scenario, I will reach out to you ahead of time with my specific concerns so that you have an opportunity to respond.

- One exception: A-pluses are given rather than self-assigned. This gives me an opportunity to recognize excpetional individual and group work and contributions to the class.

Project Work Time

- Use this time as you see fit to finish out your project work and/or prepare for final class ⚡ lightning ⚡ talks.
